EXPERIENCE

APPIAN LEAD

SCADEA SOFTWARE SOL. | NOV 2022 - MAR 2024

- Working as a Tech Lead for a BFSI Client.
- Also contributing to the internal Appian practice where I have helped publish multiple applications to Appian App Market.

CONSULTANT [6-MONTH CONTRACT]

PERSISTENT SYSTEMS | APRIL 2022 - OCT 2022

- I work on multiple projects with separate teams with the responsibility of stakeholder communication and Project Management.
- Other tasks include code reviews, deployments, technical and non-technical documentation.

SENIOR SOFTWARE ENGINEER

APPCINO TECHNOLOGIES | SEPT 2021 - MAR 2022

- Lead a team of 4 engineers to automate a complex workflow for a client in Healthcare vertical. Also took the complete responsibility of delivery including business requirement management and deployments.
- Efficiently managing multiple deadlines while working on 2 projects simultaneously.

SOFTWARE ENGINEER

APPCINO TECHNOLOGIES | AUG 2020 - AUG 2021

- Acquired the responsibility of mentoring new joiners while training them on Appian.
- At times I had to work on completely new codebases with little or no technical knowledge upfront.

TRAINEE/ASSOCIATE SOFTWARE ENGINEER

APPCINO TECHNOLOGIES | AUG 2019 - JUL 2020

- Only 2 months into my first job and I was onboarded on the company's most distinguished product - Connected Claims. Which is a product of Appian, developed by Appcino [more info [here](#) and [here](#)].
- Single-handedly built a framework that is currently being used in multiple client projects and ready-to-use applications.

EDUCATION

BACHELOR OF TECHNOLOGY, COMPUTER SCIENCE

GOVT. ENGG. COLLEGE, AJMER | JULY 2017 - MAY 2019

Dropped out after completing 2nd year.

PROJECTS [OUTSIDE APPIAN]

SLACK CLONE

[GITHUB](#) | [WEB APP](#)

A minimal clone of the popular channel-based messaging app, Slack.

FRONTEND BOOTCAMP

[GITHUB](#) | [WEB APP](#)

Homepage of an Imaginary Frontend Bootcamp. A Responsive page that looks beautiful on all screen sizes.
